*A special note regarding personal information about your child:

Some parents hesitate to provide programs with personal information about their child's behavior or past experience. Some fear the information may be misused, while others are concerned about their child being labeled, singled out or treated differently. Having prior knowledge about a learning difficulty, ADHD, or child's life makes a tremendous difference in helping us be sensitive to your child's needs. Children need staff to be partners with their parents in planning for a safe and successful program experience. Our commitment is to use such information only to help your child adjust to the program. It will never be used unnecessarily, and only with the greatest discretion. Please write any other information that would be helpful to your child's youth leader; i.e. family situations or possible challenges. Feel free to use additional sheets of paper.
